

chapter 51 animal behavior pdf

Collective animal behavior is a form of social behavior involving the coordinated behavior of large groups of similar animals as well as emergent properties of these groups. This can include the costs and benefits of group membership, the transfer of information across the group, the group decision-making process, and group locomotion and synchronization.

Domestic Animal Behavior for Veterinarians and Animal

Animal sexual behaviour takes many different forms, including within the same species. Common mating or reproductively motivated systems include monogamy, polygyny, polyandry, polygamy and promiscuity. Other sexual behaviour may be reproductively motivated (e.g. sex apparently due to duress or coercion and situational sexual behaviour) or non-reproductively motivated (e.g. interspecific ...

The question therefore remains whether we can know if a mouse is "depressed". In reality, few models of depression fully fit these validating criteria, and most models currently used rely on either the actions of known antidepressants or responses to stress. 4 Notably, it is not necessary for an "ideal" animal model of depression to exhibit all of the abnormalities of depression ...

Vitamin B 12 (cobalamin) functions as a coenzyme for a critical methyl transfer reaction that converts homocysteine to methionine and for a separate reaction that converts L-methylmalonyl-coenzyme A (CoA) to succinyl-CoA. The Recommended Dietary Allowance (RDA) for vitamin B 12 is based on the amount needed for the maintenance of hematological status and normal serum vitamin B 12 values.
