Learn about Caltech's vision, mission, and impactâ€”who we are, what we do, and why it mattersâ€”and get a glimpse at what we've accomplished this past year on campus and at JPL by reading our annual Institute overview, This is Caltech. View or download the PDF

This is Caltech: 2018 | Caltech

Download the PDF of the 2018-2019 brochure; Browse the list of the 2018-2019 lectures; Named for the late Earnest C. Watson, who founded the series in 1922, these lectures feature speakers from Caltech and JPL, speaking on their cutting-edge research.

Public Events Series | Caltech

Research in the Agapie laboratory is targeted toward developing new, practical catalysts by using inspiration from biological systems. Some of the most fascinating catalysts in Nature display complex inorganic cofactors, sometimes in combination with organic cofactors, and perform chemical transformations (water reduction and oxidation, carbon dioxide reduction, dinitrogen reduction, dioxygen ...

Agapie Group Inorganic, Organometallic and Bioinorganic

News: Congratulations to Nanoscience Award Winner Shana Kelley, and to Young Investigator Award Winners! NANOSCIENCE AWARD. Shana O. Kelley, Professor at the University of Toronto, is the winner of the 2017 Inorganic Nanoscience Award, presented by the ACS Division of Inorganic Chemistry to honor excellent research. The award is sponsored by the University of South Carolina NanoCenter.

Division of Inorganic Chemistry | of the American Chemical

This is a list of notable chemical engineers, people who studied or practiced chemical engineering. The main list is those who achieved status in chemical engineering or a closely related field such as management or science. At the foot of the page is a list of people with chemical engineering qualifications who are notable for other reasons, such as actors, sportspeople and authors.

List of chemical engineers - Wikipedia

Aerogel is a synthetic porous ultralight material derived from a gel, in which the liquid component for the gel has been replaced with a gas. The result is a solid with extremely low density and low thermal conductivity. Nicknames include frozen smoke, solid smoke, solid air, solid cloud, blue smoke owing to its translucent nature and the way light scatters in the material.

Aerogel - Wikipedia

Location Both top tech schools are in small university towns within easy reach of a major city. MIT is based in Cambridge, Massachusetts, a university town of under 150,000 inhabitants which is also home to Harvard University â€” making this one of the worldâ€™s most prestigious hubs of academic tuition and research. Cambridge is close to Boston, one of the most culturally vibrant and historic ...

The importance of Antun Lucic - Anthony F. Lucas for the development of petroleum engineering worldwide is analogous to that of Nikola Tesla (also born in Croatia) for the development of electrical engineering.. As to his nationality, it is often mistakenly described as Austrian, and sometimes even Italian (like in Who is Who in America, where there is also another mistake - that he was born ...
