Honors Chemistry - Darrell Feebeck

Molarity, or molar concentration, represents the concentration of a solute in a solution. The unit usually used for molarity in chemistry is mol/L and is represented by the symbol M. Molarity is calculated by determining the number of liters of a solution, determining the number of moles of solute in a solution, and then dividing the number moles of solute by the liters of solution.

Upcoming Units. Measurements and Calculations (Chapter 5)--In this unit, we are introduced to the organization of matter (elements vs. compounds, atoms vs. molecules, pure substances vs. mixtures). We also learn about accuracy and precision in scientific measurements and the application of significant figures.

Chemistry CP - Dr. VanderVeen

Honors Chemistry is designed for students who have demonstrated strong ability in previous science courses. In this fast-paced, demanding course, the main topics--which include atomic theory, nuclear chemistry, periodicity, chemical reactions, stoichiometry, gases, solutions, reaction kinetics, equilibrium, acid-base theory, oxidation-reduction, and organic chemistry--are studied at an ...

During the Golden Age of Islam, especially during the 9th and 10th centuries, mathematics saw many important innovations building on Greek mathematics. The most notable achievement of Islamic mathematics was the development of algebra. Other notable achievements of the Islamic period are advances in spherical trigonometry and the addition of the decimal point to the Arabic numeral system.

4 8 16 In the first call to the function, we only define the argument a , which is a mandatory, positional argument. In the second call, we define a and n , in the order they are defined in the function. Finally, in the third call, we define a as a positional argument, and n as a keyword argument.. If all of the arguments are optional, we can even call the function with no arguments.

However, if you are discussing, for example, the historical context in which the episode originally aired, you should cite the full date. Because you are specifying the date of airing, you would then use WB Television Network (rather than Mutant Enemy), because it was the network (rather than the production company) that aired the episode on the date you're citing.
