Department of Civil & Environmental Engineering & Earth

Journal of Civil, Construction and Environmental Engineering (JCCEE) aims at bringing into the light the domain of civil, construction and environmental engineering which including civil engineering, acoustics, architectural design, coatings and claddings, architecture and planning, naval architectural engineering, water resource engineering, mineral and metallurgical engineering, and other ...

Journal of Civil, Construction and Environmental

Civil law, or civilian law, is a legal system originating in Europe, intellectualized within the framework of Roman law, the main feature of which is that its core principles are codified into a referable system which serves as the primary source of law. This can be contrasted with common law systems, the intellectual framework of which comes from judge-made decisional law, and gives ...

Civil law (legal system) - Wikipedia

Environmental engineering is the branch of engineering concerned with the application of scientific and engineering principles for protection of human populations from the effects of adverse environmental factors; protection of environments, both local and global, from potentially deleterious effects of natural and human activities; and improvement of environmental quality.

Environmental engineering - Wikipedia

A centralized information system based on ESRI® GIS software provides civil engineers with the IT framework for maintaining and deploying critical data and applications across every aspect of the infrastructure project life cycle including planning and design, data collection and manage-

GIS Solutions for Civil Engineering - Esri

Please contact us for your environmental projects pertaining to facility inspections, compliance programs, permitting, testing, maintenance plans or design of underground and aboveground storage tank systems, and Phase I, II and III environmental assessments and remediation.
