

exac for architects study pdf

Professional requirements for architects vary from place to place, but usually consist of three elements: a university degree or advanced education, a period of internship or training in an office, and examination for registration with a jurisdiction.. Professionals engaged in the design and supervision of construction projects prior to the late 19th century were not necessarily trained in a ...

Professional requirements for architects - Wikipedia

The Master of Architecture (M.Arch.) is a professional degree in architecture, qualifying the graduate to move through the various stages of professional accreditation (internship, exams) that result in receiving a license.
