Internet Hunt Activities created by Cindy O'Hora. The Internet is an enormous collection of answers. The challenge is to find them. Completing an Internet hunt will develop your web browsing skills.

Internet Scavenger Hunts & Problem Research Activities

Easy as 1-2-3 Butterfly. Easy: Our activities are simple to prepare and easy to integrate into standards-based curriculums. Fun: Teachers take deep pleasure in delighting their studentsâ€™ and children learn best from activities that open their senses and stimulate their minds. Inexpensive: As a non-profit, we provide our materials at the lowest possible cost or no cost to classrooms and schools.

Air pollution occurs when harmful or excessive quantities of substances including gases, particulates, and biological molecules are introduced into Earth's atmosphere. It may cause diseases, allergies and even death to humans; it may also cause harm to other living organisms such as animals and food crops, and may damage the natural or built environment.

Air pollution - Wikipedia

What is the water cycle? What is the water cycle? I can easily answer thatâ€”it is "me" all over! The water cycle describes the existence and movement of water on, in, and above the Earth.

The Water Cycle summary, USGS Water Science School

Red Wolf. *Canis rufus*. Today eastern North Carolina is the only place to find red wolves in the wild. Within their ecosystem, red wolves play a valuable role in keeping prey populations in check.

Edit Text: . Conservation International was a pioneer in defining and promoting the concept of hotspots. In 1989, just one year after scientist Norman Myers wrote the paper that introduced the hotspots concept, CI adopted the idea of protecting these incredible places as the guiding principle of our investments.

Why Hotspots Matter - Conservation International

Search the world's information, including webpages, images, videos and more. Google has many special features to help you find exactly what you're looking for.
