This article is about the important technologies that have historically increased productivity and is intended to serve as the History section of Productivity from which it was moved.. Productivity in general is a ratio of output to input in the production of goods and services.

**Productivity improving technologies - Wikipedia**

The history of science is the study of the development of science and scientific knowledge, including both the natural and social sciences. (The history of the arts and humanities is termed history of scholarship.) Science is a body of empirical, theoretical, and practical knowledge about the natural world, produced by scientists who emphasize the observation, explanation, and prediction of ...
