The horrific environmental and climate decimation being created by climate engineering are far beyond catastrophic. Though there are countless forms of anthropogenic damage to the planet and the climate system, global geoengineering operations are mathematically the most destructive of all. If public apathy regarding the climate engineering assault remains, if academia continues to lie about ...

JACQUES: (exuberantly) I present the source of homeland security reality as one dimension, ranging from objective to subjective. I describe the persistence of that reality as a second dimension, ranging from very stable to continuously changing. For my analytical convenience, I can then define homeland security as four ideal types: 24 a rational reality, 25 a structural reality, 26 a group ...
