It's been a hectic week and I haven't got as much done as I wanted (in the way of craft!). I thought I would get these paper gem templates up and then maybe you could make something with them if you fancied? I had lots of really great suggestions as to what to do with them so thanks for the input (s...

An atomic clock is a clock device that uses an electron transition frequency in the microwave, optical, or ultraviolet region of the electromagnetic spectrum of atoms as a frequency standard for its timekeeping element. Atomic clocks are the most accurate time and frequency standards known, and are used as primary standards for international time distribution services, to control the wave ...
