In mathematics, computer science and operations research, mathematical optimization or mathematical programming, alternatively spelled optimisation, is the selection of a best element (with regard to some criterion) from some set of available alternatives.. In the simplest case, an optimization problem consists of maximizing or minimizing a real function by systematically choosing input values ...

Mathematical optimization - Wikipedia

Invaluable in and out of the classroom. Designed to develop deep mathematical understanding and all the skills students need for their AS/A level studies and beyond.

Integral for AS/A level Maths and Further Maths

Providing researchers with access to millions of scientific documents from journals, books, series, protocols and reference works.

Home - Springer

The philosophy of mathematics is the branch of philosophy that studies the assumptions, foundations, and implications of mathematics, and purports to provide a viewpoint of the nature and methodology of mathematics, and to understand the place of mathematics in people's lives. The logical and structural nature of mathematics itself makes this study both broad and unique among its philosophical ...
