The self is an individual person as the object of his or her own reflective consciousness. This reference is necessarily subjective, thus self is a reference by a subject to the same subject. The sense of having a self "or self-hood" should, however, not be confused with subjectivity itself. Ostensibly, there is a directedness outward from the subject that refers inward, back to its ...

Psychological testing is the administration of psychological tests, which are designed to be "an objective and standardized measure of a sample of behavior". The term sample of behavior refers to an individual's performance on tasks that have usually been prescribed beforehand. The samples of behavior that make up a paper-and-pencil test, the most common type of test, are a series of items.

Peer assessment. Peer assessment involves students taking responsibility for assessing the work of their peers against set assessment criteria. They can therefore be engaged in providing feedback to their peers (sometimes referred to as peer review), summative grades (moderated by you or your colleagues), or a combination of the two.
