The owners/operators of most underground storage tank (UST) systems in Massachusetts are required to have those systems and their components inspected every three years by Third-Party Inspectors (TPIs).. MassDEP's TPI Certification Program ensures that those responsible for inspecting UST systems have the necessary knowledge and understanding of how these systems work.

Underground Heating Oil Tanks: A Homeowner's Guide. Most home heating oil tanks are not regulated by New York State's Petroleum Bulk Storage (PBS) regulations because they have a capacity of less than 1,100 gallons (see the PBS Registration Fee Worksheet (PDF, 11.65 KB) for more information). However, some delegated counties have regulations that do apply.
